CONCORDIA UNIVERSITY

FACULTY OF FINE ARTS

'XX5'

June 4 to June 9, 2001

VAV GALLERY

Concordia University plays a vital role among art institutions in Canada. One of the University's primary goals is to foster art appreciation among students. In an effort to celebrate the work of Concordia's photography students, the Faculty of Fine Arts Advisory Board in collaboration with the Photography Department are pleased to present an exhibition in the VAV gallery featuring the work of 28 artists both at the graduate and undergraduate level.

Programmed in conjunction with the annual event Artstravaganza, a fundraiser for Concordia's Fine Arts students, XX5 introduces a selection of recent and new work by emerging artists who are specifically working with the photographic medium. This exhibition effectively illustrates a wide range of conceptual, technical and aesthetic concerns and seeks to express current issues in contemporary art.

The exhibition is curated by Marisa Portolese and has been organized with the assistance of the Dean's Office, Faculty of Fine Arts.
